

I would urge you to NOT block XM radio from providing local content information, such as traffic reports. This would be similar to not allowing cell phones to make long distance calls.

Satellite radio provides me variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully, I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
